CHOOSE YOUR PAYMENT OPTION

OPTION A / WE MANAGE THE SITE

\$350 then \$50 / month

Pay \$350 after you approve the website and it is live online.

First 3 months free. Management starts on the launch date.

\$50/month from month 4, paid at the start of each service month.

Website development + ongoing management

OPTION B / YOU MANAGE THE SITE

\$500 One Time Payment

Pay \$500 after you approve the website and we transfer the website files and the access needed to manage it to you.

No monthly fee from us. You pay the hosting, domain, database and storage bills. You handle updates and fixes. Ongoing management and support are not included.

Management includes: website hosting, database and storage, minor website updates, domain renewal and DNS management.

SERVICE TERMS

For Option A, renewing the website address is included if it is moved to our account for us to manage. Otherwise, the client handles its renewal and cost.

The client provides the menu, prices, photos and payment details, and checks customer payments. Customers must send the prepared WhatsApp message themselves.

New features and a full redesign cost extra. We will agree on the price with you before starting. Optional business email costs \$7 per month for each email address.

Option A continues month to month after the free period. To stop management, tell us before the next monthly payment is due and arrange to take over the site and its running costs.

Selected option: ☐ A

☐ B

By signing, both parties agree to the selected option and terms.
